Session: 01

SUMMARY OF INFORMATION:

SG1A

1. (S/STD) Identify and describe the probable narcotics smuggling mothership known by the callsign [REDACTED]
 - a. Perceived name as (approximation of) "REINA" or "PUNTA REINA".
 - b. Repeated indications of chipped, dull yellow paint, with a bright red (company symbol?) angled across the superstructure (see sketch, Fig. 1)
There also appears to be a strange (to me) triangular open area underneath the ship out of which one can see the open water (see sketch, Fig. 2).
2. (S/STD) Is the vessel carrying contraband?: Repeated attempts to find contraband drugs turned up no drugs presently (0930-0945 9 APR 90) on board.
3. (S/STD) Where is the vessel located?: Present (0920 9 APR 90) location is approximately 16 deg. 30' N / 74 deg. 30' W.
4. (S/STD) Identify any associated vessel(s): cursory search did not reveal any. Detailed search not addressed in this session due to time constraints.
5. (S/STD) What is the route and speed of advance of the mothership?:
Present (9 APR 90) route is northward from present location turning northwesterly to go between Haiti and Cuba (see arrowed line on Map, Fig 3).
6. (S/STD) Give the date and location of the transfer point: Search for
